

Department of Biochemistry and Microbial Sciences

School of Basic and Applied Sciences
Central University of Punjab, Bathinda

**Ph.D. Program in Biochemistry
2018-19**

Ph.D. Program in Biochemistry

Sr. No	Course Code	Course Title	L	P	Cr
1	LBC.701	Research Methodology and Computer Applications	4	-	4
2	LBC.702	Advanced Biochemistry	4	-	4
3	LBC.XXX	Any other Life Sciences PhD Course	4	-	4
		Total Credits			12

L: Lectures; P: Practical; Cr: Credits

In addition to the course work, 80 research credits are required for the award of PhD degree.

LBC.701: Research Methodology and Computer Applications

Unit	Syllabus	Lectures
1.	<p>General Principles of Research: Meaning and importance of research, Critical thinking, Formulating hypothesis and development of research plan, Review of literature, Interpretation of results and discussion. Bibliographic index and research quality parameters: citation index, impact factor, <i>h</i> index, <i>i10</i> index, etc. Research engines such as google scholar, Scopus, web of science, etc.</p> <p>Technical Writing: Scientific writing, Writing synopsis, Research paper, Poster preparation, oral presentations and Dissertations. Reference Management using various softwares such as Endnote, reference manager, Refworks, etc. Communication skills: defining communication; type of communication; techniques of communication, etc. Library: Classification systems, e-Library, Reference management, Web-based literature search engines.</p>	20
2.	<p>Introduction and Principles of Good Lab Practices: Good laboratory practices, Biosafety for human health and environment. Biosafety issues for using cloned genes in medicine, agriculture, industry, and eco-protection, Biological containment and physical containment, CDC Biosafety levels, Biosafety in Clinical laboratories and biohazard management, Physical, Chemical & Biological hazards.</p> <p>Research Ethics: Ethical theories, Ethical considerations during research, data manipulations, subject consent, Animal testing. Animal rights, Perspectives and methodology & Ethical issues of the human genome project. Intellectual property protection (IPP) and intellectual property rights (IPR), WTO (World Trade Organization), WIPO (World Intellectual Property Organization), GATT (General Agreement on Tariff and Trade), TRIPs (Trade Related Intellectual Property Rights), TRIMS (Trade Related Investment Measures) and GATS (General Agreement on Trades in Services). Patents, Technology Development/Transfer Commercialization Related Aspects, Ethics.</p> <p>Plagiarism: Plagiarism, definition, Search engines, regulations, policies and documents/thesis/manuscripts checking through softwares, Knowing and Avoiding Plagiarism during documents/thesis/manuscripts/scientific writing.</p>	20
3.	<p>Computer Application Software: Spreadsheet applications, Word-processing applications, Presentation applications, Internet browsers, Reference Management, and Image processing applications. World wide web: Origin and concepts, Overview of internet and its application for quality literature collection and secondary data related to research work. Exploring various websites and search engines. Computer applications to statistical packages. <i>In silico</i> approaches for drug designing.</p>	16
4.	<p>Bioinformatics: Organization, management and analysis of biological data, use of computers in data analysis, biological databases - DNA sequence databases and protein sequence databases, BLAST, FASTA, multiple sequence alignment, primers in biology (design and types of primers)</p>	16

	genome projects (human, <i>Arabidopsis</i> and other genome projects), NCBI, UCSC and other database searches.	
Suggested Reading:		
1. Gupta, S. (2008). <i>Research Methodology and statistical techniques</i> . Deep & Deep Publications (P) Limited, New Delhi.		
2. Kothari, C. R. (2014). <i>Research methodology (s)</i> . New Age International (p) Limited. New Delhi.		
3. Sahay, Vinaya and Pradumna Singh (2009). <i>Encyclopedia of Research Methodology in life sciences</i> . Anmol Publications. New Delhi.		
4. Kauda J. (2012). <i>Research Methodology: A Project Guide for University Students</i> . Samfunds literature Publications.		
5. Dharmapalan B. (2012). <i>Scientific Research Methodology</i> . Narosa Publishing		
6. Norman, G. and Streiner, D. (2008). <i>Biostatistics: The Bare Essentials.3/e (with SPSS)</i> . Decker Inc. USA.		
7. Rao, P. P., S. Sundar and Richard, J. (2009). <i>Introduction to Biostatistics and Research Methods</i> . PHI learning.		
8. Christensen, L. (2007). <i>Experimental Methodology</i> . Boston: Allyn & Bacon.		
9. Fleming, D. O. and Hunt, D.L. (2006). <i>Biological Safety: Principles and Practices</i> . American Society for Microbiology, USA.		
10. Rockman, H. B. (2004). <i>Intellectual Property Law for Engineers and Scientists</i> . Wiley-IEEE Press, USA.		
11. Shannon, T. A. (2009). <i>An Introduction to Bioethics</i> . Paulist Press, USA.		
12. Vaughn, L. (2009). <i>Bioethics: Principles, Issues, and Cases</i> . Oxford University Press, UK.		

LBC.702: Advanced Biochemistry

Unit	Syllabus	Lectures
1.	Metabolism: Recent advances in amino acid, carbohydrate, lipid and nucleotide metabolism.	18
2.	Xenobiotic Metabolism: Chemical nature of xenobiotic; Transport of xenobiotic within the body; Fate of metabolism; Biotransformation; Detoxification; Examples of xenobiotic metabolism.	18
3.	Stress Biology: The stress response; Biomarkers of chronic stress and their role in diagnosis and therapy; Metabolic and neuroendocrine biomarkers; Exocytosis and ER Stress: Role of disruptive function of glycosylation/inter- and intra-molecular disulfide bond formation.	18
4.	Advanced Techniques and Applications: Metabolomics, Proteomics, protein-protein interactions, protein-metabolite interactions; Applications in Agriculture and Human Health	18
Suggested Reading: Research papers and reviews published in peer-reviewed international journals in the above areas.
