Central University of Punjab

Department of Applied Agriculture

MBA (Agribusiness) Programme

About the MBA (Agribusiness) Programme

The MBA (Agribusiness) Programme was established in 2016 under the Department of Applied Agriculture, School of Basic and Applied Sciences at Central University of Punjab. MBA (Agribusiness) programme is designed to prepare students for management-related careers in food & agribusiness and allied sectors in a varying international environment. The Department has identified agribusiness as the area that aim to educate, train, and provide self-employment opportunities to the young minds besides offering the scope for various opportunities in the corporate sector and academia. Huge opportunities in Agribusiness are also attracting investments in primary production and the output side in food processing and distribution. Opportunities for future growth potential in the agribusiness industry are mainly fuelled by sustained economic growth, rising per capita income, urbanization and globalization, integration of the global food value chain, improvement in infrastructure for storage and transportation.

Mission

- To undertake teaching and research in diverse applied areas of agribusiness management to educate, train, and inspire young minds to excel in various avenues.

Vision

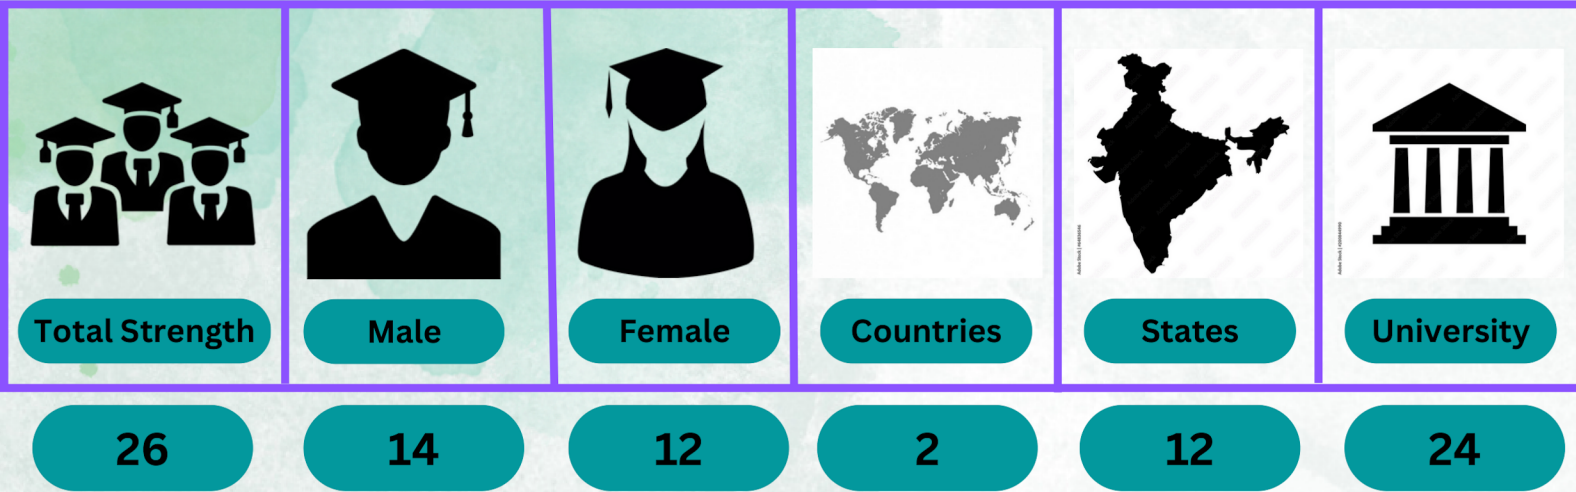

- To be a leading centre of excellence for agribusiness management with regional, national and global footprints.

Mandate

- Creating an academically inspiring environment that encourages the manifestation of inner human potential for the overall benefit of agriculture, businesses, government, and society.
- Cultivating young leaders with strong values who can drive social and economic transformations toward a more ethical and sustainable society.
- Encouraging and developing individuals with an entrepreneurial spirit and capable of solving societal challenges through innovative and sustainable business models.
