CENTRAL UNIVERSITY OF PUNJAB

MBA Agribusiness

Batch - 2024-26

Department of Applied Agriculture

Graduate Attributes

The graduates of the Master of Business Administration in Agribusiness will acquire the following:

Context of Society

The students of this programme will understand the significant role of business, management, marketing, finance, and human resource for agriculture-based business environment. There will be an understanding of the basics of business ethics, research ethics, agriculture issues, and the principles of managerial practice.

Enterprising and Knowledgeable

The programme content will train learners and develop skills of agribusiness professionals. This will enhance employability in the field of agribusiness and marketing. The programme will enable students to get adopted in the area of Agribusiness as professionals (e.g., managers, agripreneurs, industry advisors, agribusiness policy makers, etc.). The emphasis is on student-centric learning where they solve the situational based problems of the sector and discuss the new innovative solutions.

Digital and Research Methodology-based skills

The students will be able to study and learn the effective use of digital tools to support academic writing, reference management and independent study using digital resources and learning materials. The understanding of the principles of business/management research methods will help the students to explore agribusiness relevant research areas and solve grassroot and industrial issues.

L = Lecture; T = Tutorial; P = Practical

Note:

- 1. The Discipline Electives will be chosen by the student among those being offered by the Department in a particular Academic Session/Semester depending upon the infrastructure and academic expertise of the faculty members available in the Department. The decision of the Department regarding Electives is to be final and binding to the concerned.
- 2. The Rural Immersion Module has to be carried out separately during the Winter Break (After completion of the First Semester)
- 3. Summer Internship has to be carried out separately during the Summer Break (After completion of the Second Semester)
- 4. MOOCs may be taken up to 40% of the total credits (excluding dissertation credits). MOOC may be taken in lieu of any course, but the content of that course should match a minimum of 70%. Mapping will be done by the department and students will be informed accordingly.

Examination pattern and evaluation

Formative Evaluation: Internal assessment shall be 25 marks using any two or more of the given methods: tests, open book examinations, assignments, term paper, etc. The Midsemester test shall be descriptive type of 25 marks including short answer and essay type. The number of questions and distribution of marks shall be decided by the teachers.

Summative Evaluation: The End semester examination (50 marks) with 70% descriptive type and 30% objective type shall be conducted at the end of the semester. The objective type shall include one-word/sentence answers, fill-in-the-blanks, MCQs', and matching. The descriptive type shall include short answer and essay-type questions. The number of questions and distribution of marks shall be decided by the teachers. Questions for exams and tests shall be designed to assess course learning outcomes along with a focus on knowledge, understanding, application, analysis, synthesis, and

evaluation. The evaluation for IDC, VAC and entrepreneurship, innovation and skill development courses shall include MST (50 marks) and ESE (50 marks). The pattern of examination for both MST and ESE shall be the same as ESE described above for other courses.

Evaluation of dissertation proposal in the third semester shall include 50% weightage by supervisor and 50% by HoD and senior-most faculty of the department. The evaluation of the dissertation in the fourth semester shall include 50% weightage for continuous evaluation by the supervisor for regularity in work, mid-term evaluation, report of dissertation, presentation, and final viva-voce; 50% weightage based on average assessment scores by an external expert, HoD and senior-most faculty of the department. The distribution of marks is based on the report of the dissertation (30%), presentation (10%), and final viva voce (10%). The external expert may attend the final viva voce offline or online mode.

Marks for internship shall be given by the supervisor, HoD and senior-most faculty of the department.

Some Guidelines for Internal Assessment

- 1. The components/pattern of internal assessment/evaluation should be made clear to students during the semester.
- 2. The results of the internal assessment must be shown to the students.
- 3. The question papers and answers of internal assessment should be discussed in the class.
- 4. The internal assessment shall be transparent and student-friendly and free from personal bias or influence.

Course Title: Statistics for Sciences

Total Hours - 30

L	T	P	Cr
3	0	0	3

Course Learning Outcomes (CLO):

After completion of the course, the students will be able to:

CLO1: The students will be able to apply statistical principles and procedures for solving business and management problems.

Unit/ Hours	Contents	Mapping with CLO
I 11 Hours	Descriptive Statistics: Meaning, need and importance of statistics. Attributes and variables. Measurement and measurement scales. Collection and tabulation of data. Diagrammatic representation of frequency distribution: histogram, frequency polygon, frequency curve, ogives, stem and leaf plot, pie chart. Learning Activities: Exercise on data collection, tabulation and presentation.	CLO1
II 11 Hours	Measures: Measures of central tendency, dispersion (including box and whisker plot), skewness and kurtosis. Linear regression and correlation (Karl Pearson's and Spearman's) and residual plots. Learning Activities: Statistical application and Testing with experimental data.	CLO1
III 11 Hours	Random variables and Distributions: Discrete and continuous random variables. Discrete Probability distributions like Binomial, Poisson and continuous distributions like Normal, F and student-t distribution. Learning Activities: Classroom exercise and discussions.	CLO1
IV 12 Hours	Differences between parametric and non-parametric statistics. Confidence interval, Errors, Levels of significance, Hypothesis testing. Parametric tests: Test for parameters of Normal population (one sample and two sample problems) z- test, student's t-test, F and chisquare test and Analysis of Variance (ANOVA). Non-Parametric tests: One sample: Sign test, signed rank test, Kolmogrov- Smirnov test, run test. Critical difference (CD), Least Significant Difference (LSD), Kruskal-Wallis	CL01

one-way ANOVA by ranks, Friedman two-way ANOVA by ranks. Learning Activities: Statistical application and Testing	
with experimental data.

Course Title: Agri-Supply Chain Management

Total Hours - 45

L	T	P	Cr
3	0	0	3

Course Learning Outcomes (CLO):

After completion of the course, the students will be able to:

CLO1: Manage the flow of goods and services, process of conversion of resources and efficiently running supply to deliver products to the end-user at a low cost.

CLO2: Develop various supply chain models and their applications.

CLO3: Formulate Inventory management techniques to control the quality and minimize the cost of handling.

CLO4: Evaluate performance measurement of different methods of SCM.

Unit/ Hours	Contents	Mapping with CLO
I 10 Hours	Supply Chain: Changing Business Environment; SCM: Present Need; Conceptual Model of Supply Chain Management; Evolution of SCM; SCM Approach; Traditional Agri. Supply Chain Management Approach; Modern Supply Chain Management Approach; Elements in SCM. Learning Activities: Peer discussion, Student presentations.	CLO1
II 12 Hours	Demand Management in Supply Chain: Types of Demand, Demand Planning and Forecasting; Operations Management in Supply Chain, Basic Principles of Manufacturing Management. Procurement Management in Agri. Supply chain: Purchasing Cycle, Types of Purchases, Classification of Purchases Goods or Services, Traditional Inventory Management, Material Requirements Planning, Just in Time (JIT), Vendor Managed Inventory (VMI). Learning Activities: Exercise on demand and supply forecasting, Case study, Group discussion.	CLO2 CLO3
III 11 Hours	Logistics Management: History and Evolution of Logistics; Elements of Logistics; Management; Distribution Management, Distribution Strategies; Pool Distribution; Transportation Management; Fleet Management; Service Innovation; Warehousing; Packaging for Logistics, Third-Party Logistics (TPL/3PL); GPS Technology.	CLO2 CLO3

	Learning Activities: Case study, Group discussion.	
IV 12 Hours	Concept of Information Technology: IT Application in SCM; Advanced Planning and Scheduling; SCM in Electronic Business; Performance Measurement and Controls in Agri. Supply Chain Management-Benchmarking: introduction, concept and forms of Benchmarking. Learning Activities: Case study, Student presentations.

Course Title: International Trade in Agriculture

Total Hours - 45

L	T	P	Cr
3	0	0	3

Course Learning Outcomes (CLO):

After completion of the course, the students will be able to:

CLO1: Interpret international trade concepts, policies to assist them in decision making and framing strategies in their managerial roles.

CLO2: Assess functions of various agencies in international trade and their challenges which can be useful in decision making in any organization.

CLO3: Determine the demand, supply, opportunity and various cost factors of the foreign markets.

CLO4: Discuss different methods to enter the international markets based on the nature of operations.

Unit/ Hours	Contents	Mapping with CLO
I 10 Hours	International trade – basic concepts, Importance of foreign trade for developing economy; absolute and comparative advantage, foreign trade of India. WTO and its implications for Indian economy in general and agriculture sector in particular. Competitive environmental forces in global business-Political, Economic, regional economic integration, cultural and human factors Learning Activities: Peer discussion, Case study.	CLO1
II 12 Hours	TRIPS, TRIMS quotas, anti-dumping duties, quantitative and qualitative restrictions, tariff and non-tariff measures, trade liberalization, subsidies, green and red boxes, issues for negotiations in future in WTO; Countervailing Duty Measures and carbon trade, SPS Agreement. Regional economic groupings, World Financial Environments- Foreign Exchange market; International monetary system; Global Capital Market Learning Activities: Peer discussion, Student Presentations, Case study	CLO2
III 11 Hours	Composition of India's foreign trade policy; India's balance of payments; inter regional Vs international	CLO3

	trade; tariffs and trade control; exchange rate; the foreign trade multiplier. export promotion institutions with special emphasis on EPCs and commodity boards, MPEDA, APEDA and service institutes, export procedures & documentations, Role of ECGC in insurance, Backward linkages towards promotion of food quality and exports in India Learning Activities: Case study, Research article reviews, Group discussion.	
IV 12 Hours	Foreign demand, supply side analysis, opportunity cost, trade and factor prices, implications for developing countries, Issues and challenges encountered by exporters of agri- food products in meeting buyers requirement in different markets, International marketing - market entry methods, international product planning, pricing, promotion, distribution, legal dimensions of international marketing, Strategy and Structure of International Business Learning Activities: Peer discussion, Case study, Research article reviews, Group discussion. Course Title: Agricultural Input Marketing

Total Hours - 45

L	T	P	Cr
3	0	0	3

Course Learning Outcomes (CLO):

After completion of the course, the students will be able to:

CLO1: Learn the importance of agri inputs, their marketing to support the agri industry by meeting various inputs needs to different organisations and responding to rapid changes.

CLO2: Understand the different types of agriculture input and their use.

CLO3: Understand the role of government, their policies and other agencies in this sector.

CLO4: Understand the various companies which are functioning in the agri-input sector.

Unit/ Hours	Contents	Mapping with CLO
I 10 Hours	Agricultural input marketing – meaning and importance; Management of distribution channels for agricultural input marketing; Agricultural Inputs and their types – farm and non-farm, public and private sectors in agriinput marketing. Marketing channels for different agriinputs, Competitive marketing strategy and advancement in agricultural marketing, IPRs in agricultural inputs. Learning Activities: Case study, Group discussion, Field exercise.	CLO1
II 12 Hours	Fig. 5	
III 12 Hours	Chemical Fertilizers- Production, export-import, supply of chemical fertilizers, Demand/consumption, Prices and pricing policy; subsidy on fertilizers; marketing system –	CLO2 CLO3 CLO4

	marketing channels, problems in distribution; Role of IFFCO and KRIBCO in fertilizer marketing, Different government policies and schemes, Contemporary Promotional activities by various fertilizer companies. Plant Protection Chemicals- Production, export/import, consumption, and marketing system – marketing channels. Learning Activities: Visits of local fertilizer and pesticides retail shops, Fertilisers and Pesticides company and industry analysis, Group discussion.	
IV 11 Hours	Farm Machinery- Production, supply, demand, Marketing and distribution channels of farm machines; Agroindustries Corporation and marketing of farm machines / implements/Equipments, Various government policies and schemes. Rural Agricultural Input - a paradigm shift in customer behaviours. Learning Activities: Visits of local farm machinery manufacturing units, Farm machinery company and industry analysis, Group discussion, Student presentations.	CLO2 CLO3 CLO4

Course Title: Management of Contract Farming

Total Hours - 45

L	T	P	Cr
3	0	0	3

Course Learning Outcomes (CLO):

After completion of the course, the students will be able to:

CLO1: Assess various agreements made between a buyer and farmers and their conditions to produce the agreed quantities.

CLO2: Introduce the regulations and formalities to be followed to make contracts.

CLO3: Manage a farm through contracts and get the work done through the contract farming.

CLO4: Apply management of project and analysing the issues of farmers under the contracts.

Unit/ Hours	Contents	Mapping with CLO
I 10 Hours	Concept and Logic of Contract Farming; Contract Farming – Past and Present; Advantages and Problems of Contract Farming - Advantages for farmers, Problems faced by farmers, Advantages for sponsors, Problems faced by sponsors. Learning Activities: Peer discussion, Case study, Classroom assignments.	CLO1 CLO2
II 12 Hours	Key Preconditions for Successful Contract Farming - Profitable market, Physical and Social Environments, Government support, Inventories of preconditions, Price fixation, Quality & Quantity Defaults; Conflict/dispute resolution Learning Activities: Case study, Research article reviews, Group discussion.	CLO3
III 12 Hours	Types of Contract Farming - Centralized Model, Nucleus Estate Model, Multipartite Model, Informal Model, Intermediary Model; Contracts and their Specifications - Legal framework, Formula, Format, Specifications, Model contract farming act 2018 and New Amendments. Learning Activities: Student presentations, Case study, Group discussion.	CLO1 CLO2
IV 11 Hours	Managing the Project - Coordinating production, managing the agronomy, Farmer-management relations;	CLO4

Monitoring Performance - Monitoring quality and yields,	
monitoring human resources, Protecting the	
environment.	
Learning Activities: Student presentations.

Course Title: Rural Immersion Module

Total Weeks - 2

L	T	P	Cr
0	0	4	2

Course Learning Outcomes (CLO):

After completion of the course, the students will be able to:

CLO1: Apply their classroom learning to real-time environment.

CLO2: Assess rural environment, rural markets and identify implementation gaps and business opportunities.

CLO3: Analyse the agricultural practices adopted by the farmers in the village.

CLO4: Determine the functioning of various organizations at the grass root level and how they are helping the village for improvement of their life.

Course Introduction:

The rural immersion module (2 weeks) has been designed to provide an opportunity for the students to observe the rural lifestyle closely and understand socio-economic situations from the point of view of the rural community. The students will have hands-on experience with farm management practices. During the first semester break (at the end of the first semester and the start of the second semester), students will have to go to the village/s and spend a fortnight with the farming community. It is expected that the students shall get exposure to various rural and agricultural practices adopted by the farmers in the village, Gram Panchayat, Cooperative Societies, NGOs, etc.; the expenditure incurred during the rural immersion module will be borne by the students themselves. The students will have to submit and present a report about their learning in the village/s.

Modes of transaction/Events: 14 days of activities

Day	Activity/Event
1	Meeting and interaction with village head (Sarpanch/Mukhiya)
2	Education facilities (School, College etc.) in the village
3	Interaction with Agriculture officials of Krishi Vigyan Kendra/Agricultural
	University/Agricultural Departments etc.
4	Meeting with progressive and young farmers in the village (A minimum of 5
	farmers)
5	Meeting with small, marginal and women farmers (A minimum of 5 farmers)
6	Agri Input shops- Seeds, Pesticides, Fertilizers, Organic products, Irrigation
	equipments
7	Farm machinery used by the farmers in the village
8	Forest department/Agro-forestry
9	Livestock- Cow, Buffalo, Goat, Sheep, Poultry, Fishery etc.
10	Agricultural Marketing Places- APMC/Mandi
11	Agri-entrepreneurs- Motivational factors, cost- benefit analysis, marketing
	activities, etc.

12	Veterinary services in the village/Veterinary hospitals
13	Banks/Co-operative societies- Agricultural finance, types of loans, subsidy
	components, NABARD support, etc.
14	Food distribution in the village, Public Distribution System, Fair Price
	Shops/Ration Shops, Food retail outlets in the village
	Collect certificate from village head

Course Title: Summer Internship

Total Weeks - 6 to 8

L	T	P	Cr
0	0	12	6

Course Learning Outcomes (CLO):

After completion of the course, the students will be able to:

CLO1: Develop and refine skills, network with professionals in the field, gain confidence and gain valuable work experience.

CLO2: Understand how the organizations work, what are roles & responsibilities of various people in the organization, challenges in the organization, to do a project in real time situation.

CLO3: Develop insights into future careers available in this field.

Course Introduction:

After the end of the first year (during the summer break), students will do on or off campus and online summer internships (summer internship up to 6-8 weeks duration) with reputed Agribusiness companies. However, if the student identifies his/her own corporate links and expresses willingness to undergo summer internship in that organization, then he/she can proceed with approval of the competent authority. Most of the internships are focused on critical problems related to future business strategies of the companies. The students will have to submit and present the Summer Internship Report.

Transaction Modes: Industry interaction, Field visits, Digital marketing, Brainstorming, Group discussion, Report writing and Presentation.

Course Title: Dissertation Part I

Total Hours - 120

L	T	P	Cr
0	0	8	4

Course Learning Outcomes (CLO):

After completion of the course, the students will be able to:

CLO1: Critically analyze, interpret, synthesize existing scientific knowledge based on literature review.

CLO2: Demonstrate an understanding of the selected research problem and identify the knowledge gap.

CLO3: Formulate a hypothesis and research design.

Students will prepare a research proposal based on literature review and extensive student-mentor interactions involving discussions, meetings and presentations. Each student will submit a research/dissertation proposal of the research work planned for the MBA Agribusiness dissertation with origin of the research problem, literature review, hypothesis, objectives and methodology to carry out the planned research work, expected outcomes and bibliography.

Students will have an option to carry out dissertation work in industry, national institutes or Universities in the top 100 NIRF ranking. Group dissertation may be opted, with a group consisting of a maximum of four students. These students may work using a single approach or multidisciplinary approach. Research can be taken up in collaboration with industry or in a group from within the discipline or across the discipline.

Transactional Modes:

Group discussions and presentations; Self-Learning; Experimentation

SEMESTER-IV

Course Code: ABM.601

Course Title: Dissertation Part II

Total Hours - 600

L	T	P	Cr
0	0	40	20

Course Learning Outcomes (CLO):

After completion of the course, the students will be able to:

CL01: Demonstrate an in-depth knowledge of scientific research pertaining to agribusiness management.

CLO2: Demonstrate experimental/theoretical research capabilities based on rigorous hands-on training.

CLO3: Critically analyze, interpret and present the data in light of existing scientific knowledge to arrive at specific conclusions.

CLO4: Develop higher-order thinking skills required for pursuing higher studies (Ph.D.)/research-oriented career options.

Students shall carry out research work/dissertation in the IV semesters under the supervisor/guide from the Department. Group dissertations may be opted for, with a group consisting of a maximum of four students. Dissertations can be taken up in collaboration with industry or in a group from within the discipline or across the discipline. Students will interact with the supervisors through meetings and presentations on a regular basis. After completion of the research work, students will complete the dissertation under the guidance of the supervisor. The dissertation will include a literature review, hypothesis, objectives, methodology, results, discussion, and bibliography. The dissertation will be evaluated by the Department as per the University policy.
